

HOUSE WARMING

ART TECH EXHIBITION
INSPIRED BY MIGRATORY BIRDS

HOUSE WARMING

In the heart of innovation and artistry, "House Warming" unfolds as an art tech series celebrating the confluence of startup dynamism, ecological awareness and cutting-edge technology. This curated collection showcases works from distinguished artists, delves into the synergy between environmental care, technology, and the entrepreneurial spirit. Inspired by migratory birds, the exhibition honours these feathered adventurers, symbolising the adaptable and supportive habitats startups need to thrive. Each artwork invites contemplation on our collective duty to nurture a future where innovation and the natural world coexist in a harmonious balance.
