About HKSTP's MICE Venues

Beyond a cosmopolitan city, Hong Kong's strategic location, sophisticated infrastructure, superlative hospitality and professional services, make it an irresistible place for meetings, incentives, conferences, and exhibitions (MICE) tourism. Indeed, Hong Kong was crowned "Best City for Meetings in Asia" in the Smart Travel Asia Awards and "Most Anticipated Overseas Meeting & Incentive Destination (Short Haul)" in the China Travel Industry Awards in 2020.

Established in 2001 with the primary intention of fostering innovation and technology, Hong Kong Science and Technology Parks Corporation (HKSTP) has been a catalyzing force behind entrepreneurial development. Aside from formulating strategic initiatives, HKSTP offers a suite of conference and exhibition facilities distributed across its establishments, where tenants or outside bodies are free to hold functions of various scales; three of which—Hong Kong Science Park, Data Technology Hub and InnoCentre—supply rental facilities.

從遠處眺望科學園，最奪目的一定是造型獨特的「金蛋」，也就是科學園金光閃閃的著名地標——高錕會議中心。

首先進入的是廣闊而開揚的會議前廳，會議中心華實兼備，284個赭色座位以弧形及梯級式呈現眼前，確保台上下人士與屏幕之間能保持最佳視線角度；天花以水平條紋組成，在適度的燈光配合下，洋溢著溫暖而莊嚴的氣氛，是相當富儀式感的一流環境。

Perceivable from miles away by its gleaming gold skin and peculiar shape, Charles K. Kao Auditorium, also known as the Golden Egg, is the iconic landmark of Hong Kong Science Park.

The lecture hall itself is cavernous, dotted with 284 ochre-colored seats. The curved arrangement is designed to ensure an uniform view of the wide stage and screen; compounded by the ceiling composed of broad, horizontal stripes interspersed with moderated lighting, the Charles K. Kao Auditorium makes for a superlative setting for ceremonies.

The space encompassing Grand Hall and Pre-function Area in Phase 3 circa 1,000 square meters in size is the largest indoor venue of Hong Kong Science Park. Remarkable for its adaptability, it is amenable to customization for a smorgasbord of functions ranging from conferences, exhibitions, banquets, lectures, product showcases, and demonstrations. For large scale functions, Grand Hall can be easily combined with Function Hall.

The neutrally-hued walls telegraph a welcoming gesture, while the seven-meter-high ceiling spares room for trusses by which presenters could hang various lighting equipment, creating the desirable ambience for their events. Moreover, equipped with a drive-in cargo lift, one can with ease offload exhibition displays, set up large-scale presentations and car shows.

香港面積小，人口密度高，大型集會場所寥寥可數，籌辦活動時往往受到很大的限制。在這個情況下，擁有廣闊空間的數據技術中心展示了其優勢，數個多功能場地皆可靈活設置，適合舉行各種形式的中型及大型活動。

Peta、Exa、Zetta、Tera 和 Giga 可改作相連房間，按活動需要而自由分配空間，彈性很大，故經常被預留作舉行團隊培訓、跨區域會議、創新及技術展覽、會後派對或宴會及研發展示會等活動。

In our dense and compact environment, venues for large congregations can be hard to come by, options so scarce that our decisions invariably entail compromises.

From this vantage point, the vast space in DT Hub might be considered a jewel in the crown, where our selection of event venues, flexible setting, lend themselves well to medium-to-large-scale functions of omni-purposes.

Our interconnecting rooms—Peta, Exa, Zetta, Tera Giga, — are often reserved for team building workshops, cross-region conferences, innovation and technology exhibition, after event party or banquet, R&D showcase, and more. Linked and located on the same floor, you're given the freedom to command and configure the space, projecting your vision into reality.

天台花園

The work of data research and analysis is commonly looked upon as a solitary endeavor. In reality, it requires open collaborations and public relations in the interest of acquiring groundbreaking ideas as well as community support.

DT Hub subverts the putative perception towards technological institutions and reinterprets the mode of work through introducing open spaces that encourages social interaction and exchanges.

Roof Garden is blanketed with flourishing greenery, comfortable furniture and ample spaces in between for meandering. Juxtaposed against the utilitarian building, it is a relaxing pocket of space suitable for team building activities, after-event parties and cocktail reception.

數據研究和分析通常被視作個人獨自探索的工作，事實上，開放式合作往往能激發出更多創新想法，良好的公眾關係可贏得社區支持。因此，數據技術中心設計有助社交互動和交流的開放空間，打破人們對技術機構的固有看法，重新詮釋工作模式。大樓上的天台花園有茂盛的草木、舒適的傢俱和充足的漫步空間，是舉行團隊培訓、會後派對和雞尾酒會的理想休閒地方。

In addition to our superlative infrastructure and rooftop garden, DT Hub's Landscape Garden is another networking space for visitors, an urban green environment designed to enrich visitors' experience via an open-air landscape. This venue is ideal for pre-event receptions or after-event parties.

Replete with canopies, elevated stone benches, and vibrant flora and fauna, the future-oriented, eco-friendly garden is in keeping with the architecture of our building and solidifies DT Hub's position as a national benchmark in sustainable MICE venue.

除了一流的基建設施和天台花園，數據技術中心的花園也是理想的社交空間，露天景觀能讓人體驗城市綠洲的感覺，非常適合舉辦活動前招待會或會後派對。花園的建築風格與大樓保持一致，以頂篷、長石凳和生機勃勃的花鳥見著，充滿可持續發展的環保元素，展示數據技術中心是作為香港履行國家級會展（MICE）產業典範的先驅。

By installing dividers, you're liberated to partition the chamber into a function and pre-function area, keeping the audience engaged in the former while refreshments are nearby in the adjacent latter area. Large-scale exhibitions and symposiums can also be held in this capacious space, showcasing your products and achievements.
